

DEVENDRA KALMODIYA

 devendrakalmodiya56@gmail.com  9981405634  LinkedIn  GitHub

Summary

Solution-oriented developer experienced in building **scalable, AI-driven applications** and end-to-end solutions. Skilled in AI/ML, full-stack development, APIs, databases, and real-time systems, with proven **leadership and stakeholder-management experience**.

EDUCATION

Bachelor of Technology in computer science with specialization in AI , <i>Medi-caps University, Indore</i> CGPA: 8.39	2023 – 2027
Class 12th (PCM) , <i>Ebenezer English Higher Secondary school, Mandsaur</i> 71.24%	2022 – 2023
Class 10th , <i>St. Thomas Sr Sec School, Mandsaur</i> 82.2%	2020 – 2021

WORK EXPERIENCE

Chief of Outgoing Global Corporate, AIESEC

- Managed 20+ international partnerships across Europe, MENA, and Asia for internship and exchange programs.
- Led a 17-member team, improving coordination, execution, and operational efficiency.

Full Stack Developer Intern | Junior Manager, SWET

- Led a 5-member team to develop the organization’s website, handling frontend, backend, and database integration.
- Integrated React frontend with Node.js APIs, improving data flow reliability and reducing manual handling.
- Implemented secure database connectivity and CRUD operations to support daily workflows.

ML Intern, IQpath Technologies Pvt. Ltd.

- Built and deployed ML models for semantic data understanding and retrieval from structured datasets.
- Implemented semantic search logic, improving search relevance and information extraction accuracy.
- Migrated data from MongoDB to PostgreSQL with pgvector, enabling vector-based search capabilities.

PROJECTS

Placeaura

Tech: React, Node.js, PostgreSQL, Supabase, Gemini API.

- Built an AI-powered job matching platform using semantic search and vector similarity.
- Integrated Arbeitnow API to fetch real-time global job listings, enabling continuous job updates.
- Developed a semantic matching engine using Gemini embeddings to convert resumes and job descriptions into 3072-dimensional vectors.
- Implemented real-time vector similarity search using PostgreSQL (pgvector) and Supabase for accurate candidate-role matching.
- Automated resume parsing and embedding pipeline in Node.js, reducing manual screening effort.
- Designed a responsive React dashboard with JWT-based authentication for role-based access (Student, Company, Admin).

InstructorIndex

Tech: React, Node.js, Express.js, MongoDB, Claudinary.

- Developed a full-stack LMS supporting instructors and students with secure role-based access control.
- Built and integrated 20+ REST APIs using Express.js, with proper CORS handling for secure communication.
- Implemented JWT-based authentication with cookie support for secure user registration and login.
- Modeled and managed data using MongoDB and Mongoose, ensuring efficient CRUD operations and data integrity.

SKILLS

Languages: Java, JavaScript, Python, C++

AI/ML: Artificial Intelligence, Machine Learning, Semantic Search, Vector Databases

Frontend: React.js, Tailwind

Backend: Node.js, Express.js

Databases: PostgreSQL, MongoDB, MySQL

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, Agile Development, Software Engineering

Design: Figma

Tools: Git, GitHub, Postman, Supabase, Vercel, Render, Claudinary

CERTIFICATES

- JP Morgan Chase & Co., Software Engineering Job Simulation 
- Deloitte, Data Analytics Job Simulation 
- Amazon, AWS Cloud foundations 
- Infrabuild: AWS Mastery 
- LeetCode SQL 50 Badge 
- Hackathon, SIH 
- Java Programming 
- AWS Cloud Clubs Infrastructure Camper
- Board Infinity, Advanced Data Structures and Algorithms 

AWARDS AND ACHIEVEMENTS

Best Delegate, *AIESEC National Bootcamp*

Attended National leadership conference, *AIESEC in India*

Bronze in National level Hockey tournament, *North west zone India*

3rd position at physics exhibition, *MEDI-CAPS university*

Contributed to community education through a societal internship at a government school.
